

VIRTUAL BOWLING

Out-of-this-world entertainment for kids and adults of all ages!

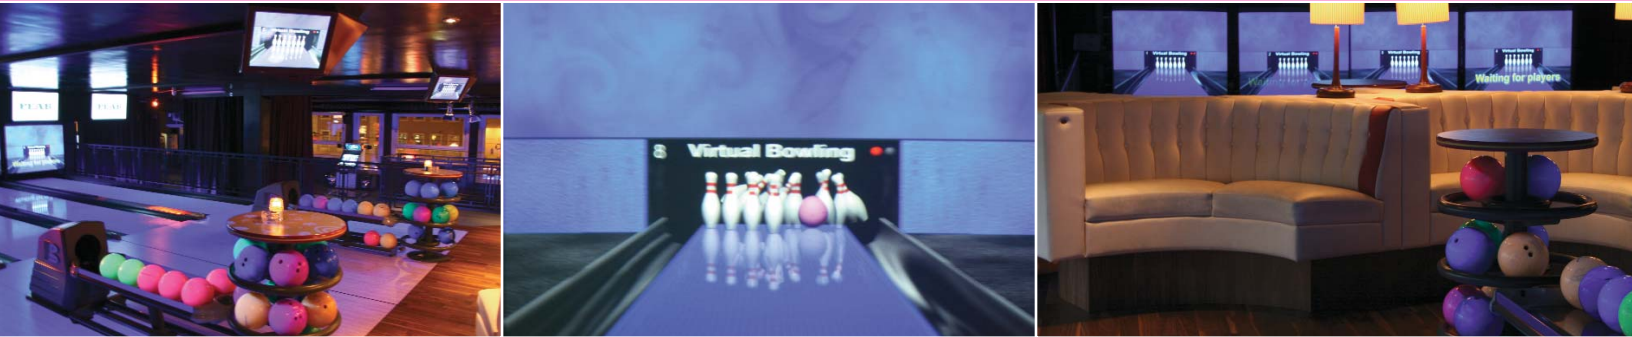

Virtual Bowling by Brunswick

Brunswick introduces a new dimension of fun by combining the popularity of bowling with the excitement of high-tech video game action. Virtual Bowling is great entertainment for groups of all sizes, ages and skill levels. A sure attraction for any entertainment business: bars, night clubs, arcades, family entertainment centers, location based entertainment centers, bowling centers, restaurants, and more! For more information on the future of fun from Brunswick, call 1-800-YES-BOWL or 1-231-725-3300 or visit www.brunswickbowling.com.

Brunswick 

THE NEXT GENERATION OF FUN!

Virtual Bowling by Brunswick

Brunswick has combined the popularity of bowling with today's high tech video game action to bring you the next generation of fun – Virtual Bowling. This exciting new game is designed to attract today's video game generation and traditional bowlers seeking a new and fun bowling challenge.

- Virtual Bowling is great entertainment for groups and parties of all sizes.
- Standard-size bowling balls or easy-to-handle miniature balls, and adjustable skill levels allow for broad audience appeal – it's fun for kids (ages 2 and up) and adults of all ages and skill levels.
- Virtual bumpers and adjustable difficulty levels keep the fun rolling for players of all skill levels. Plus, ball hook settings add to the fun for more experienced bowlers.
- Virtual Bowling requires a total installation length of just 38 feet and can fit into many existing businesses, including bars, night clubs, arcades, family entertainment centers, location based entertainment centers, bowling centers, restaurants, and more.
- Smaller footprint and mass appeal of Virtual Bowling are sure to increase your revenue per square foot, providing you with high return-on-investment potential.
- With few mechanical parts and no bumpers or pinsetter, Virtual Bowling is easy to operate and maintain.
- The lane surface is oil-free, requiring minimal maintenance. Plus, your customers can wear their street shoes to play – no rental shoes to inventory and maintain!

Since Virtual Bowling is software driven, it is ready for future upgrades featuring new virtual games, graphics and excitement. Watch Virtual Bowling evolve from the virtual tenpin bowling experience to high-tech games of the future.

Let us take your customers into a new dimension of fun and take your entertainment venue to new levels of excitement! Contact us to learn more about Virtual Bowling today!
